

## Hosted Exchange Email Service

The Microsoft Exchange email solution is the most used messaging system in the world. Until now it required the purchase of expensive hardware and software licences and so its use has been limited to larger companies.

Now, with our Hosted Exchange Email Service, you can have all the power and functionality of this business class email, with no maintenance or upfront cost; just a single, per user monthly invoice.

### Exchange email features

- Real-time, synchronised email and calendar
- Anti-virus and anti-spam protection
- Mobile access available on iPhone, Blackberry etc
- Work offline on emails and documents
- Send and receive emails anywhere with an internet connection

### Why use a hosted email service?

Because you run your emails from our remote servers there are no expensive costs for hardware and your messages are held securely offsite.

There is no need to worry about software upgrades as we implement all security and patch updates.

We manage all maintenance so you don't have to, ensuring availability of the service at all times.

**Hassle free messaging:** email accounts that are easily set up and require little administration. No need for an expensive dedicated server; no need for internal expertise, no need to worry, as they are monitored 24 hours a day

**Mobility:** Ideal solution for organisations with mobile users or multiple locations. Work offline and login to your hosted Exchange email account from any computer with internet access. iPhone compatible and Blackberry add-on available

**Security as Standard:** Anti-spam and anti-virus are all standard within the Hosted Exchange Email Service. Our mailbox servers are backed up in real time which means your messages are secure 24/7 365 days a year

**Flexibility:** Whatever the size of your business we have the email package to suit! Extra accounts are easily added meaning it is suitable for sole traders and SMEs alike, adapting to the growth of your business as and when you need it

**Business Continuity:** By using our Hosted Exchange Email Service, alone or alongside our online backup solution you can protect your business critical emails whilst streamlining your IT systems. The combined effect is to ensure data availability whilst reducing IT maintenance and overhead costs

SECURING YOUR DATA | PROTECTING YOUR BUSINESS
